Advertisement.

WHEREAS my ſolicitation in October 1765, *which was followed by a ſuſpenſion of the publication of this Gazette for ſeven months, has been ſo* little *regarded, by thoſe to whom it was addreſſed, that the payments* then *together with thoſe* ſince *made, have ſcarce proved ſufficient to defray the common expences of a large family, with houſe-rent and journeymen's wages, much leſs to anſwer repeated and preſſing calls for money where due, and enable me to procure ſupplies of paper in due time, whereby I am become a very great ſufferer: I am compelled to give this notice, to all perſons indebted to me, eſpecially thoſe whoſe accompts are of an old date, that it will not be in my power to give them credit beyond the firſt of* Auguſt *next, without injuring my credit and family beyond reparation.*

N. B. As I have, ſince the above date, received a ſmall ſupply of paper, this GAZETTE will now be publiſhed every Monday, and not delayed upon any conſideration, ſo that thoſe who continue to favour me with Advertiſements, may depend on having their ends anſwered, if they ſend them in time.

American Intelligence.

ST. JOHN'S (in Antigua) *April* 22.

WE hear that his Excellency William Woodley, Eſq; commander in chief of the Leeward Iſlands, will not arrive here before the latter end of this year.

Yeſterday the ſnow Brothers, Tho. Looney, maſter, from the coaſt of Africa, with 260 ſlaves, by an accident took fire, as ſhe was riding at anchor in our harbour; immediately the boats belonging to the ſhipping, put off to her aſſiſtance, all the negroes except one or two were ſaved, but the ſhip blew up, and afterwards was entirely conſumed.

BOSTON, *May* 11.

Extract of a letter from a gentleman in London to his friend in Boſton, dated June 1, *in Capt. Freeman.*

SIR,

"I have now the pleaſure to aſſure you, that the miniſtry are well ſatisfied with your late conduct. Your province was yeſterday ſpoken of in the houſe of commons with great reſpect, and your conduct commended. They will attend to no alterations of old meaſures. I adviſed you, as one of the committee, that Malcolm's affair was not adopted by the government, nor do I believe it has left any bad impreſſions on their minds. I adviſed the ſpeaker of the reception of the houſe's repreſentation of their grievances, which was pertinent, decent and modeſt, and am in hopes of good effects from it. The unanimous votes of thanks to the ſeveral perſons who appeared in your favour on the late repeal, was a well judged meaſure, and doubtleſs was of ſervice to your intereſt here. You do me juſtice in believing me to be a friend to America, and to liberty. That darling favourite, and important cauſe, will ever lay near the heart of your real friend and humble ſervant."

Extract of a letter from a gentleman of character in London, to his friend in this town, dated the 9*th of March*, 1767.

"I think the houſe (of repreſentatives) much to be commended for being jealous of their privileges.—There is certainly ſomebody who miſrepreſents your province; but—your character as a province ſtands very well with the miniſtry, and has been ſpoken of with approbation by the houſe of commons." The ſame letter mentions Lord S—n's being entirely ſatisfied of the conduct of this town, reſpecting the affair of Capt. Malcolm laſt fall;—and further, that there is good reaſon to hope that the difficulties lying on our trade and fiſhery will be removed in conſequence of the letters on that ſubject, ſent home by the late houſe of repreſentatives, and the petition of the merchants of this town.

May 18. In capt. Smith came a fine picture of the Right Hon. HENRY SEYMOUR CONWAY, Eſq; one of his Majeſty's principal ſecretaries of ſtate, which is to be placed in Faneuil-Hall, agreeable to a vote of the town paſſed in September 1765, as a ſtanding monument of our gratitude to him for his notable and patriotic ſpeeches in parliament, in favour of the colonies, their rights and privileges.

Saturday laſt was the anniverſary of our receiving the joyful news of the repeal of the ſtamp-act. The guns at the caſtle were diſcharged.

We learn from Louiſburg, that the winter paſt was extremely ſevere there, and ſo intenſely cold that boiling water, placed in the open air, was frozen to a ſolid ice in twenty five ſeconds.

Salem, May 15. By capt. Thomas Lee, who arrived here yeſterday in 39 days from Cadiz, we are informed of the following remarkable event, viz. That about the beginning of April laſt, a few days before he ſailed, the whole fraternity of the Jeſuits were, by an order of court, expelled that city, in the following manner. Parties of ſoldiers were, without any previous notice, placed before the doors of all the houſes, convents, &c. where any of that ſociety were ſuppoſed to be, in the dead of night, and continued there till the next night, when, it was ſaid, the city was cleared of them. It is thought they were ſhipped to Italy. The common report at Cadiz was, that all the effects of theſe fathers were confiſcated, and that the above-mentioned orders were to be executed throughout the kingdoms of Old and New Spain, the ſame night.

PHILADELPHIA, *May* 14.

We hear that the French ſettlers at St. Lucia, manufactured laſt year 4000 hogſheads of muſcovado ſugar, 3000 hogſheads of melaſſes, and 1100 hogſheads of rum, the latter chiefly exported to Africa, for the purchaſe of ſlaves, where, it is ſaid, the French carry on a very conſiderable trade.

May 21. His excellency the governor of New-Jerſey has, by advice of council, appointed the general aſſembly of that province to meet at Burlington, on Tueſday the 9th day of June next, for the diſpatch of buſineſs, and circular letters are iſſued to notify the ſame.

On Monday the 11th inſtant, came on the election of twelve managers and a treaſurer, for the houſe of employment of the poor of this city and ſuburbs, when the following gentlemen were choſen, viz. Joſeph Fox, Abel James, Samuel Rhoads, Jacob Lewis, John Palmer, Luke Morris, Enoch Story, Samuel Burge, Andrew Bankſon, Philip Benezet, John Parrock, and John Wharton, Managers; and Henry Deinker, treaſurer.

PHILADELPHIA, May 28.

Extract of a letter from Barbados, dated April 24.

"About ſeven o' clock this morning we had a ſhock of an earthquake, which laſted about a minute, but did no damage; about 15 minutes after, the ſea on a ſudden fell ſeveral feet (it being low water) and left the ground in the dock bare, then roſe again ſeveral feet, ſo that the water would have come over the wharff, had not the tide been out; immediately after, it fell ſo low as to leave the boats dry on the ground, and directly the ſea came tumbling in again with great force, then ruſhed back with the ſame rapidity, and continued ebbing and flowing in this manner, about half an hour. It is imagined from theſe appearances, that a dreadful earthquake has happened in ſome part of Europe, as the earthquake at Lisbon occaſioned the ſame flux and reflux of water here, though it was not attended with an earthquake."

Extract of a letter from Barbados, of the ſame date,

"About 7 o' clock this morning, we had a ſhock of an earthquake, which continued a full minute, but has done no damage, and ſhortly after ſucceeded by a flux and reflux of the water for about twenty minutes and more, and fell ſeveral diff rent times eight or nine feet perpendicular, but did no damage, ſave overſetting and filling ſeveral boats lying at the wharves."

Saturday laſt his Excellency John Wentworth, Eſq; appointed Governor of New-Hampſhire, came to town, by land, from South Carolina.

NEWPORT, *(Rhode-Iſland) May* 18.

Capt. Bradfield, who arrived here laſt week from Jamaica, in 33 days, brought in Capt. Robert Ruſſel, and Mr. Scott of that iſland, with ſeveral others, to the number of five, beſides four negroes, who belonged to the ſloop Dove, bound from Jamaica for Georgia, which was caſt away, the 16th of April, on the Colloradoes, off the weſt end of Cuba, where the veſſel and cargo were loſt: The next day the men arrived in their boat at Cape Antonio, 14 leagues from where the ſloop was loſt; and on the 20th, capt. Bradfield appearing in ſight, took them all on board.

NEW-YORK, *May* 18.

On Monday laſt were landed here, from on board the ſchooner Phœnix, captain Bernard, 45,000 dollars, ſent by Sir Samuel Fluyder, and John Drummond, Eſq; contractors for the payment of the troops in America, to James M'Ivers, Eſq; of this city, merchant, whom they have appointed their agent.

Both by private letters and the London prints we have intimation of the failure in London, of Hagan and Comp. and another great houſe there, who were the chief contractors for moſt of the ſhip-loads of wheat, that have gone lately from Philadelphia, Maryland, and this city; by which we are aſſured many merchants in theſe parts will probably be great ſufferers, eſpecially if the markets ſhould turn out but low, which by all appearance will be really the caſe.—For

Sunday laſt Capt. Richards arrived here in a ſloop from Leghorn, which port he left the 5th of March laſt, and by him we have advice, that ſeveral veſſels from Maryland, Philadelphia, and this place were arrived there with wheat, among which were the captains Smith and Robinſon, from this port; that the price of wheat was very low, and proviſions cheaper and plentier there than in New-York. Capt. Richards himſelf, being conſtrained to ſell his flour at 11 s. per C.—That many of the ſhips would be obliged to carry their proviſions back to England, there being no market in the Mediterranean, but what was overſtock'd, and the appearance of a plentiful crop ſoon coming in.

May 21. By Capt. Thompſon, arrived here in 20 days from Monte Chriſti, we have advice, that the trade between that place and the French on Hiſpaniola, has lately had a ſevere check put to it, from a proclamation iſſued by the French general, prohibiting all communication of trade with the Mountains. Captain Thompſon left about forty Engliſh veſſels there, many of whom would be obliged to leave the place without getting their load, only two of which belonged to New-York, Captain Mercer, and another.

By Captain Elder, from St. Croix, we learn, that the crop of ſugar this ſeaſon falls much ſhort of expectation at that iſland, occaſioned by a great drought ſome time before the canes were ripe.

By the Hartford poſt we have advice of the death of colonel Roger Woolcot, formerly governor of this colony, aged 89 years.

Mr. TIMOTHY,

IT is time now to quit the combat, and ſubmit to J—n B—nd. I am pretty well ſeaſoned by that medley with dirt muſt expect it;—but what ſatisfaction muſt it be to a man, to ſee that all the malevolence of that ruſtic boor cannot touch his character, either in public or private life.——From him who takes his Maker's laws for a cloak, what muſt man expect? if he abuſes the former he certainly will the latter.—To point out the many impropriities with which his extraordinary performance abounds, would amount to an affront impoſed on the diſcernment of every reaſoning perſon, and ſhall therefore only take notice that I never ſaw a production abounding with more ſcurrility and abuſe, than what appears in almoſt every line.—One would imagine the author of it, excluſive of all other views, had ſet himſelf down with an intent of exhibiting to the world a ſpecimen of his great abilities in the Billingſgate way, in which it is needleſs for me to obſerve how far he has ſucceeded.

J——n L——d.

STRAYED lately from Trott's point, a large HE BEAR: Whoever will bring him to his den ſhall be handſomly rewarded.—A few days before, his female found means to get away and carried off his cub; which it is imagined to be the occaſion of his ſtraying.

At the ſame time will be ſold, a pew in the middle iſle of the church of St. Philip, Charles-Town, known in the plat of the pews in the ſaid church, by the number 2.

FRANCIS VARAMBAUT.

WILLIAM JOHNSON,

Takes this method of informing the PUBLIC,

That he has opened

A SCHOOL,

IN UNION-STREET-CONTINUED,

At the houſe the *Cedow houſe* was lately kept in, where children and youth of both ſexes, are inſtructed in READING, WRITING, ARITHMETICK, &c. agreeable to the following plan.

I. IN teaching the children to READ, the ſtricteſt regard will be paid to an eaſy, graceful, yet manly pronunciation of the language; and in order to avoid thoſe vicious habits of reading and pronouncing, which they ſo frequently acquire under perſons not properly qualified for initiating them into the firſt principles of literature, he propoſes to take children from their firſt ſetting out.

II. WRITING, he propoſes to teach in that ſimple elegance which is its greateſt ornament, avoiding all unnatural flouriſhing and uſeleſs decorations.

III. As ſoon as they begin to write, he propoſes to initiate them into the principles of the Engliſh GRAMMAR, in a manner much more eaſy and familiar than that which is generally practiſed, and without much interfering with the ordinary buſineſs of the ſchool.

It is a common, but too well grounded complaint, that a grammatical ſtudy of our own language ſeldom makes any part of the ordinary method of inſtructing youth in our Engliſh ſchools. To this neglect may juſtly be attributed the great incorrectneſs obſervable amongſt almoſt all ranks of people in ſpeaking and writing their native language: To remedy which, to teach the children to ſpeak and write with propriety, is the point the propoſer has in view; and experience has aſſured him that he has no reaſon to doubt of ſucceſs.

IV. ARITHMETICK he teaches in all its branches, both vulgar and decimal, together with *Merchants Accompts, Trigonometry*, and all the PRACTICAL BRANCHES of the MATHEMATICKS, ſuch as *Gauging, Surveying* and *Navigation* with the theory and practice of all which he is well acquainted.

V. At leiſure hours, without much interfering with the buſineſs of the ſchool, he propoſes to teach the children of both ſexes the ELEMENTS of GEOGRAPHY, by tracing out the boundaries, relative ſituations, latitude and longitude of all the kingdoms and countries of the world; giving, at the ſame time, a ſuccinct account of their trade, cuſtoms and manners: To which will be added, all the principal problems in the USE of the GLOBES.

VI. A courſe of experiments in MECHANICS will likewiſe be exhibited, in which will be explained the conſtruction, uſe and advantage, of the ſix mechanic powers, viz. the lever, the wheel and axle, (commonly called the axis in peritrochio) the pully, the inclined plane, the wedge, and the ſcrew; with their application to many important purpoſes in human life.

VII. A courſe of lectures on ſelect ſubjects in NATURAL PHILOSOPHY will alſo be exhibited, at proper ſeaſons of vacation, as well for the inſtruction of the youth as of perſons of riper years; to which his pupils will be admitted as a reward for their diligence and application to their ſtudies, and to encourage them to proceed therein; but principally to cultivate in their tender minds a love of knowledge, and a taſte for inquiring into the works of nature.

As the above PLAN of ENGLISH EDUCATION is intended for general utility, the propoſer flatters himſelf with the hopes of meeting with encouragement, as he aſſures thoſe parents and guardians who may be pleaſed to favour him with the care of inſtructing their children, that nothing ſhall be wanting on his part, that care and diligence, added to ſome conſiderable degree of experience, can ſupply, in order to bring the children forward in their learning, and to make their ſtudies agreeable to them.

May 18, 1767.

CHARLES-TOWN, June 22, 1767.

LAST Monday John Stuart, Esq; Superintendant of Indian affairs for the Southern district of North America, returned from the Western frontiers of this province, whither he lately went, as we hear, to meet some of the Creeks and Cherokees, and settle some matters relative to the trade with those Indians.

The same day embarked for England, in the ship Fair-American, Mr. John M'Call.

Roger Peter Handasyde Hatley, Esq; was appointed Controller, (not *Collector*, as mentioned in our last) for the port of Beaufort. And,

John Dering, Esq; is appointed his Majesty's Advocate-General in the Court of Vice-Admiralty of this province:

In which court, as we have it in the paper published by Mr. Robert Wells, who is Marshal thereof,

"On Tuesday last came on before the hon. Egerton Leigh, Esq; sole judge of the same, a cause of great weight and expectation, wherein James Hawker, Esq; commander of his Majesty's ship Sardoine, was prosecutor *qui tam*, &c. against the Sooner Active, and her cargo, whereof James Gordon, of Wiskaw, merchant, was the claimant. The seizure of this coasting sooner was made on presence that she had no register, and bond not having been given, nor cockets and clearances taken out from the custom house, agreeable to the directions of the act of 7th and 8th Will. III. and of the acts of the 3d and 4th and 5th and 6th of his present Majesty's reign, when the judge after hearing many learned arguments from the proctors and advocates on both sides, and taking due time to deliberate thereon, was pleased to deliver his opinion, "That nothing "in the several acts above mentioned, can be construed to lay any unnecessary restraints upon the "trade and correspondence of his Majesty's American subjects, when any goods or commodities are "carried merely for the use or sustenance of the "said colonies, viz. in other words, *when such goods "are carried only from one port or place to another port, "or place in the same colony.*" And, for as much as it did appear that the vessel in question had been constantly employed within this province, without putting out to sea, further than her burthen, or the coast made necessary, for the safety of her navigation to and from this port, and there was not the least shadow of pretence to think the said vessel had been at any time employed in an illicit trade, or that any fraud had been committed or intended, whereby his Majesty's revenue could be diminished or affected, or the fair trader undermined or prejudiced, contrary to any of the wise provisions of any revenue laws, or the laws of the customs: His honour was pleased thereupon to *dismiss the information*, and to order *restitution of the vessel and cargo to the claimant*, and decreed the claimant to pay all costs, except such as accrued to the prosecutor on his part of the proceedings, the judge being of opinion, that, all circumstances considered, there was *a probable cause of seizure*, and the most material part of the expences attending the prosecution was occasioned by the claimant himself.

"At every sitting of the court, during the continuance of the cause, which was long and highly contested, the court house was constantly crowded. The judge's final sentence and decree was received with uncommon and general satisfaction; it being from thence apparent that no vessels whatever, when proceeding to another, are obliged to take out clearances, cockets or clearances at the custom house, nor have vessels employed solely in that trade, or, that never go to another colony any occasion for a register, they being particularly excepted in the 7th, and 8 & 9 Will. III."

The same day embarked for London, in the ship Planters-Adventure, Capt. Lowley, Mr. Richard King, of London, Mr. Walter Mansell, Dect. John Fergusson, Mr. Peter Taylor, and others.

In the afternoon of said day, we had a severe storm of lightning, Thunder, Rain, and Hail, the effects of the former of which were felt at three different places in this town.—The first explosion was at a Pine Tree near the Gate, which, and a post in the fence next to it, were very much shattered: Near this tree, upon which (on examination) the lightning appears to have played in several divided streams, Mr. Robert Rutherford and some other carpenters were at work; a negro man, one of the number, who had placed himself close to the tree, received one of these streams and was instantaneously struck dead; it passed at the same time along a bench upon which said Rutherford and Mr. Robert Rawlins were sitting, who were both very much hurt: Mr. Rutherford's breeches, with one of his stockings and shoes were torn to pieces, and his legs and thighs much burnt and bruised; Mr. Rawlins was less hurt, having only one leg and foot a good deal scorch'd and bruised, and his stocking and shoe burnt; but it is very remarkable that where the blistering near his heel and toe was most raised, are two small holes thro' the shoe leather not bigger than this O, made by the lightning, which shews that it pulled off there in two divided streams: The path along the bench, from the tree to where Mr. Rawlins sat, is also marked by the raising of a small splinter. The second flash fell on the new or unfinished House belonging to the South-Carolina Society in Anson-borough, where it divided into two streams, attracted by the spike iron bars in two of the cellar windows, shattered two window cases above them, and did some damage to one chimney.—The the third was received by the house of Mr. Peter Long in King-street, the roof of which, as well as the laths, plastering and partitions, were a good deal damaged; in one corner of a chamber where the lightning passed, was a gun standing in a corner, with a flask full of powder, and a cartouch-box filled with cartridges: Upon examining the gun, it appeared that a small portion of the point of the bayonet was melted off, and the brass mounting fluted, as well as the nails in the plaistering exhibited several marks of fusion; yet the powder in the flask and cartouch-box was not fired; there appeared also, plain marks of a connection between the breech of the gun and a nail in the floor, without producing any spark between the nail and the point of the bayonet. Hence it may be observed, that had a sooner been fired to Mr. Long's house, equal to the substance of the gun barrel or even the nail, reaching from a proper fire on the chimney to below the foundation, the lightning might have passed off without doing any damage to the house; and by this instance, as well as at the factory's house, that metal of any kind will give it a freer passage than any other body we are yet acquainted with.—It is a circumstance also worthy to be remarked, that in the front parlour of Mr. Long's, where the lightning exerted its utmost violence, several of his family were standing in the middle of the floor, and not one was hurt; which justifies what has been long remarked and the ingenious Mr. Johnson, in his electrical discourses, has particularly expatiated on, that the middle of a room, tolerably large, is the securest place, as the lightning, when it strikes a house, always runs along the materials of which it is composed, as the walls, chimney, or even the furniture standing near them. We are indebted to the same gentleman, for a caution against running under large trees, or in the middle of an open field in a thunder storm, both which he has represented as equally dangerous: He recommended, when any person should find himself overtaken by one of these storms, to betake himself to a tree, but to remember to keep at a distance from its body, at least equal to its height.

Wednesday arrived from St. Kitts, the sloop Duke of Lancaster, David Lamb master, who informs us, that on Tuesday morning about 2 o' clock, being off Winyah bar, his topmast was shivered by lightning, his son, a youth in his eighteenth year, who was on deck near the foot of the mast, killed, and two sailors knock'd down, who lay senseless twelve hours.

Wednesday arrived here, in the Brigt. Prince of Wales, from Philadelphia, Robt. Brewton, Esq.

Saturday put in here very leaky, the Sooner Nancy, William Connor, master, 5 weeks out from Jamaica, bound for Georgia.

The ship Mary, Capt. James Gordon, from London, for this port, arrived off Winyah Bar the same day. Mr. John Giles, a passenger, landed at George-Town, and came to town yesterday.

In Capt. Chamberling from London, is arrived a Minister for the German Congregation here.

Yesterday Mrs. Hume delivered an exhortation to a numerous body of people, of all persuasions, at the Quaker's Meeting-house.
